'The pliability of the material, the evolving pattern and rich colours, plus the scope for individual touches draw the weaver into the creative process. It is also therapeutic – on Clare's workshop you soon stop worrying about everyday cares as you count carefully before weaving in the next withy.' Inspirations magazine, Nov 1998

A choice of one day workshops with Clare Wilks

Make a cone:

Tuesday 23rd October OR Saturday 12th January;

Each person will create a structure in woven willow up to 2 metres high for a garden, terrace or interior. Based on the shape of a cone, the piece can be a sculpture or unique plant support.

**Make a ball: Tuesday 11th December, Saturday 15th December,
Tuesday 15th January OR Saturday 16th February:**

Each person will create a ball in woven willow about 40cm in diameter. The ball can become an indoor or outdoor feature, for example on a wall or in a tree. In December we can also make Christmas wreaths!

Make a figurative or abstract sculpture - Saturday 26th January

Each person will create a figurative or abstract sculpture about 40cm high that can become an indoor or outdoor feature. We will first create the shape with chicken wire; over this structure we will then weave willow or/and wire.

More information about the workshops:

During the morning we will learn weaving techniques for creating a strong base. In the afternoon Clare will help each participant to develop their piece sculpturally or finish it off in a simple design. No prior experience or pre-planning is necessary. Clare, an experienced workshop facilitator, will provide handouts on willow suppliers and varieties.
